These are my sites and some new stuff is appearing. If you're in the industry stay tuned.

The TTF's you get from E-Fect allow you to work unrestricted...All fonts contain general US keyboard characters.

With more people combining embroidery and print, you can find some interesting things happening. It has opportunities..and challenges. Mostly the challenge is having a TTF to match your embroidery font.

Over 350 styles available...

**Need a custom keyboard font?**

You can power up your software with the best keyboard fonts industrywide!
