**By Starlight**  
The quick brown fox  
jumps over the lazy dog.

The By Starlight font was originally completed in December of 2000, but there were two versions prior to this one that were scrapped. This is a jumbly, lullaby font and it looks much better in larger sizes. This is a freebie. Enjoy!

### **This is a FREE font.**

It contains uppercase and lowercase letters, numbers, and punctuation.

You can view the full character map at [QuickBrownFoxFonts.com](http://QuickBrownFoxFonts.com).

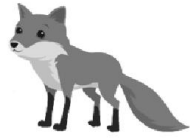

My free fonts may be distributed through any media, as long as this PDF file is included, you are not selling the fonts, and you don't claim them as your own.

Whatever you use the font for, I'd love to see what you come up with! Feel free to contact me through my website and tell me about your project.

**Thank you kindly!**
